DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. Receipt is acknowledged of a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) and a submission, filed on 04/16/2007

Examiner's Answer

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Jensen on 06/21/07. The substance of the interview can be seen on the attached examiner-initiated interview summary form.

The application has been amended as follows:

Listing of Claims

1 – 22. (Previously Presented)

23. (Currently Amended) The method of claim 1, further comprising the steps of:

applying an imaginary light source to the enhanced image;

displaying a portion of the enhanced image to a user;

Art Unit: 2628

interactively repositioning at least one of the imaginary light source and the displayed enhanced image relative to a line of sight of the displayed enhanced image to the user;
and
repeating the ~~last three~~ converting, calculating and combining steps in claim 1.

24 – 43. (Previously Presented)

44. (Currently Amended) The system of claim 27, further comprising the steps of:

applying an imaginary light source to the enhanced image;
displaying a portion of the enhanced image to a user;
interactively repositioning at least one of the imaginary light source and the displayed enhanced image relative to a line of sight of the displayed enhanced image to the user;
and
repeating the ~~last three~~ converting, calculating and combining steps in claim 27.

45 – 46. (Previously Presented)

Allowable Subject Matter

3. Claims 1-46 are allowed.

The following is an examiner's statement of reasons for allowance:

In reference to claims 1, 25, 27 and 46, the prior art of record (Kilgard, Rice and Parghi et al.) does not explicitly disclose selecting a first and a second attribute from multiple attributes, the first attribute and second attribute each having its own vertices, creating a normal map using

at least one of the first and second attributes, the normal map having its own vertices and converting the normal map vertices and the vertices of the at least one of the first and second attributes used to create the normal into a matrix representing a tangent space normal map in combination with the further limitations of claims 1, 25, 27 and 46 respectively.

In reference to claims 2-23, 26 and 28-44, claims 2-23, 26 and 28-44 depend upon allowable claims 1, 25 and 27 respectively and are therefore also deemed allowable.

In reference to claims 24 and 45, the prior art of record (Kilgard, Rice and Parghi et al.) does not explicitly disclose selecting an attribute from multiple attributes, the attribute having its own vertices, creating a normal map derived from the attribute, the normal map having its own vertices and converting the normal map vertices and the vertices of the attribute into a matrix representing a tangent space normal map in combination with the further limitations of claims 24 and 45 respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments, see pages 19-26 of Applicant's Remarks, filed 04/16/07, with respect to prior art rejection of claims 1-46 have been fully considered and are persuasive. The prior art rejection of the claims has been withdrawn.
